FOREWORD

Pertinent statistics on education in New York State for 1988-89 and trends for earlier years appear here. Emphasis is placed on summary tables and figures, but details for separate school districts are provided in tables appearing in Appendix A.

Information for elementary and secondary schools, higher and professional education, libraries and special programs is reported.

Because of rounding, totals shown in some of the tables differ slightly from sums obtained by actually adding the component values.

Unless otherwise specified, information contained in the tables was obtained from the Information Center on Education.

^{a/} This table reflects applications and enrollment for associate and baccalaureate programs as well as unclassified status.
Data for certificate and diploma programs are not included.

^{b/} "Unclassified" students are included with transfer students.

NOTE: Applications to CUNY institutions are received and processed on a university-wide basis through the University Application Processing Center. Applications accepted, as reported in this table, may reflect the students' first, second or third choice of institution. However, applications received reflect only the students' first choice. For example, a student who applies to a CUNY senior college, but is eligible only for a CUNY community college is counted at the senior college level for applications received, but at the community college level for applications accepted.

Applicants to CUNY institutions are not required to specify full- or part-time study at the time of application. Therefore, applications received and accepted, as reported in this table, reflect both full- and part-time data. However, applicants enrolled reflect full-time data only.
